The screenshot shows the moDiag 2.0.110 professional software interface. The main window displays a table of vehicle parameters with columns for Parameter, Actual value, Unit, Min, Average, Max, and ECU. The table lists various sensors and their readings, such as engine RPM, vehicle speed, and fuel trim values. The interface includes a sidebar with navigation options like Status, Sensor data, and Trouble codes. At the bottom, there are controls for interval settings, logging, and a wizard for fuel consumption.
